

TEAM OVERVIEW

2020-2021 Ultimate Goal

GEAR MASTERS

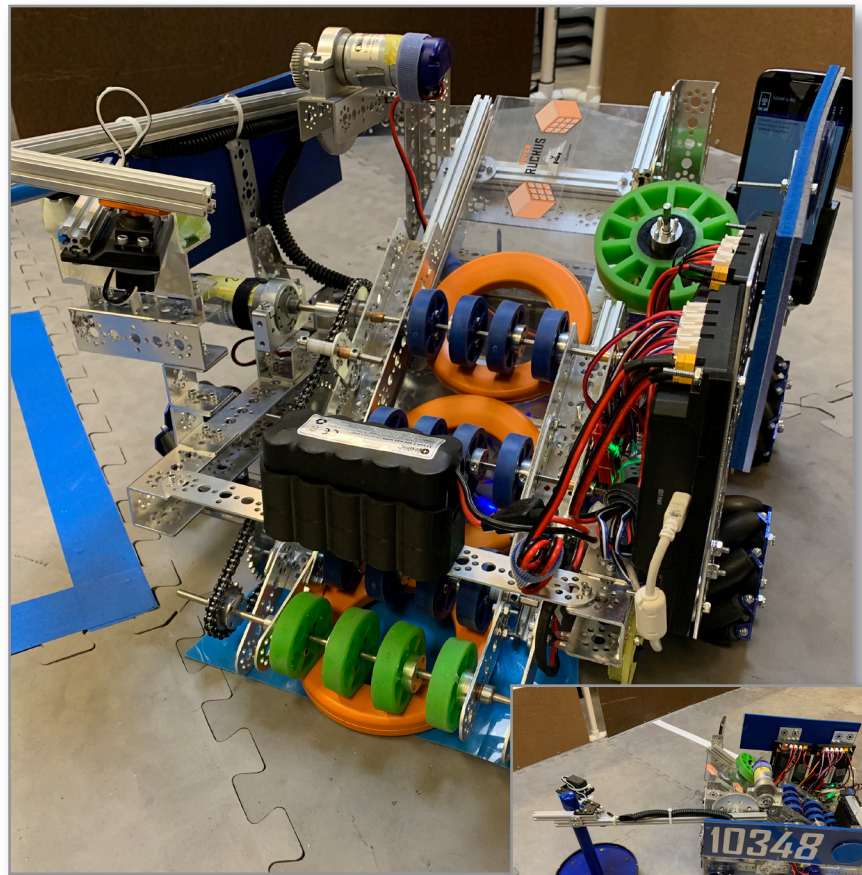

#10348

Autonomous Score:
up to **56**

Tele-Op Score:
up to **72**

End Game Score:
up to **65**

Total Possible (Solo):
193

Meet "Munchie"!

Rings — Our intake system can grab rings quickly and store up to 3 rings. We can deliver them to the mid or high goal and can shoot the Power Shots. We can get 9-12 delivered in tele-op period before the end game period.

End Game — We can shoot up to 3 Power Shots, pick up the wobble goal and deliver outside the field for up to 65 points.

Autonomous — We have one autonomous program so far:
Autonomous 1: Move forward, shoot three rings at the high goal, slide the wobble goal into the first box, then park on the line= up to 56pts

Agility — Our quick intake, and reliable shooter allow us to grab and deliver rings quickly. Our meccanum wheels allow us to be very quick and maneuverable.

Consistency — Our robot, "Munchie", has an autonomous programs that can score consistently. The tele-op program is reliable, and the robot programming is stable.
